* = some QSOs outside of DUR-Time 0800-1100 utc (+/- 10min.)

Bitte auch die 1297.500 (SBW-Frequenz) in FM für die Bergfunker aktivieren. #
SSB - Stationen: Bitte jede volle und halbe Stunde auf die FM-QRG schalten.

Stimmen zum Wettbewerb:

Jürgen, DL1DUR: Hallo Jens, bei super Wetter leider kaum Aktivität. Gerade 3 QSO auf 3cm. Aus Richtung Ost (SP) ist kein OM mehr QRV...

Laci, HA5UA: Du to the new QTH construction I have very limited time to enjoy the radio! Happy to have an our to make some contact with my friends!

Andre', DL6AST: Leider nicht die ganze Zeit QRV gewesen, aber ein paar QSO haben den Weg ins Log gefunden.

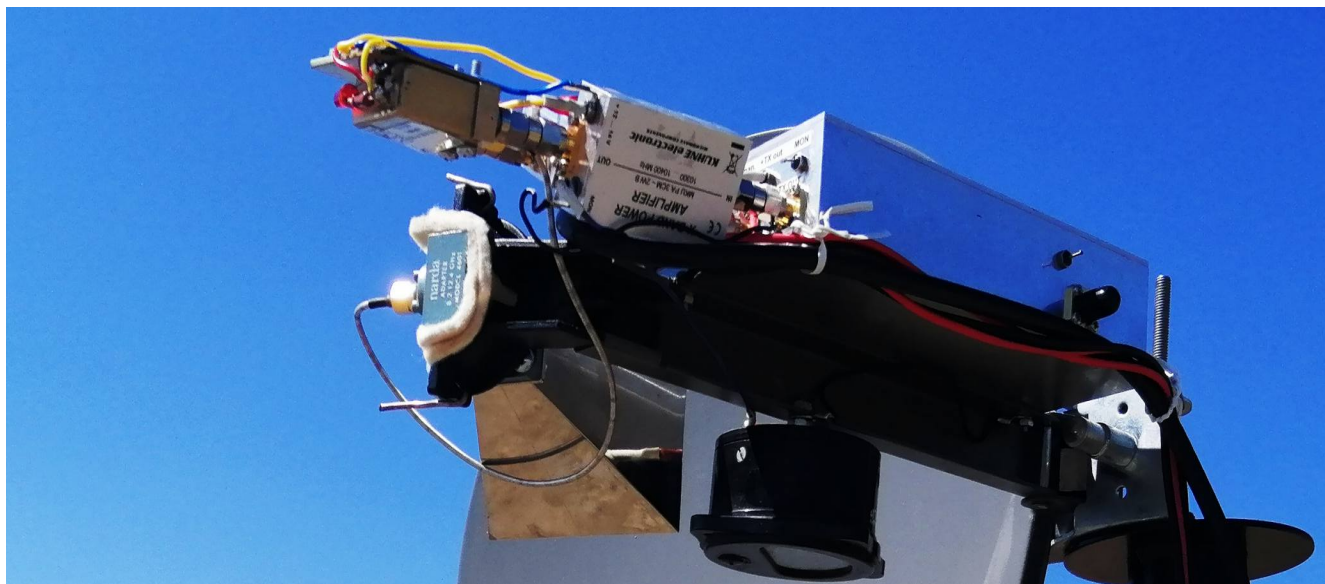

Gabi, HA8V: All the bands from me were very weak today and RS was not available either! I experimented a lot with the YO8RHM Mihail 23-13cm nothing, the same for the S51WX-9A2GA. OM5CM-HA2MJ-OK1PGS and I could even list the patient partners, nothing. DH5YM, Mario I didn't stand a chance. A Jolly Joker in my diary DH3NAN, again, it was a strong and simple QSO. Thank you for everyone's patience, I have to work on 4 bands alone and so far only changed to the west, it is worth planning a QSO for the east as well. The 220cm parabola time while turning 180 degrees ...

Hartmut, DG2DWL: Diesesmal hatte ich Probleme mit meiner 13cm-Antenne und deshalb hier nur wenig Punkte.

Jack, YO3GNF: I added some picture, as you recommended, to have a hint about my setup and location for this round of activity. (mni tnx fer nice pics, 73s de DH0LS)

Mario, DH5YM: Mal sehen, ob ich zur September DUR zum Funken komme.

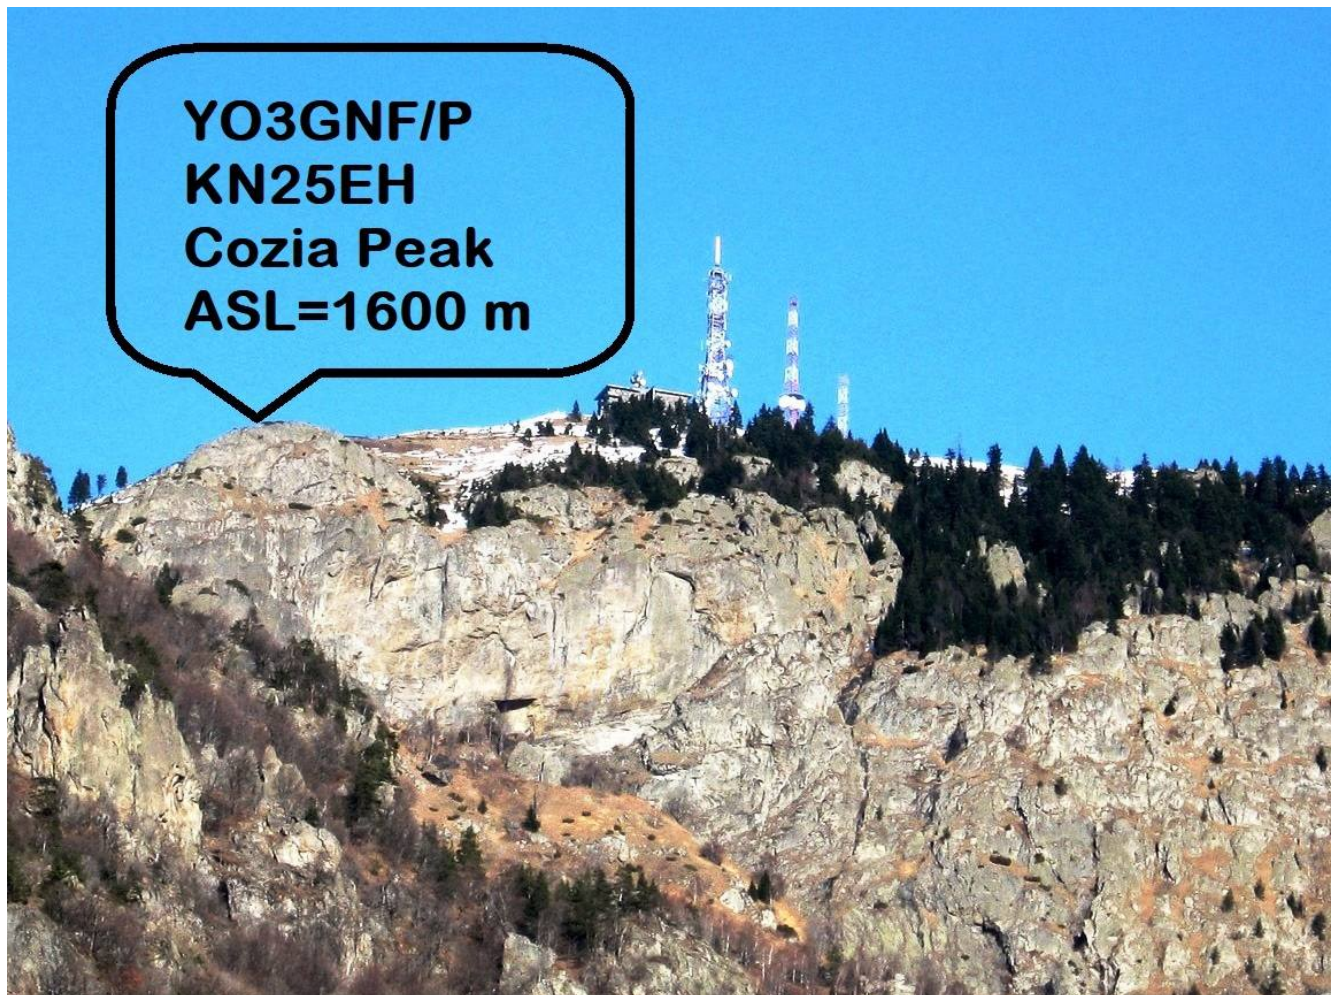

Peter, DG1VC: .Die Bedingungen waren mittelmäßig bis normal. Leider waren nur wenige Stationen in der Luft. Sicherlich war es der Urlaubszeit geschuldet.

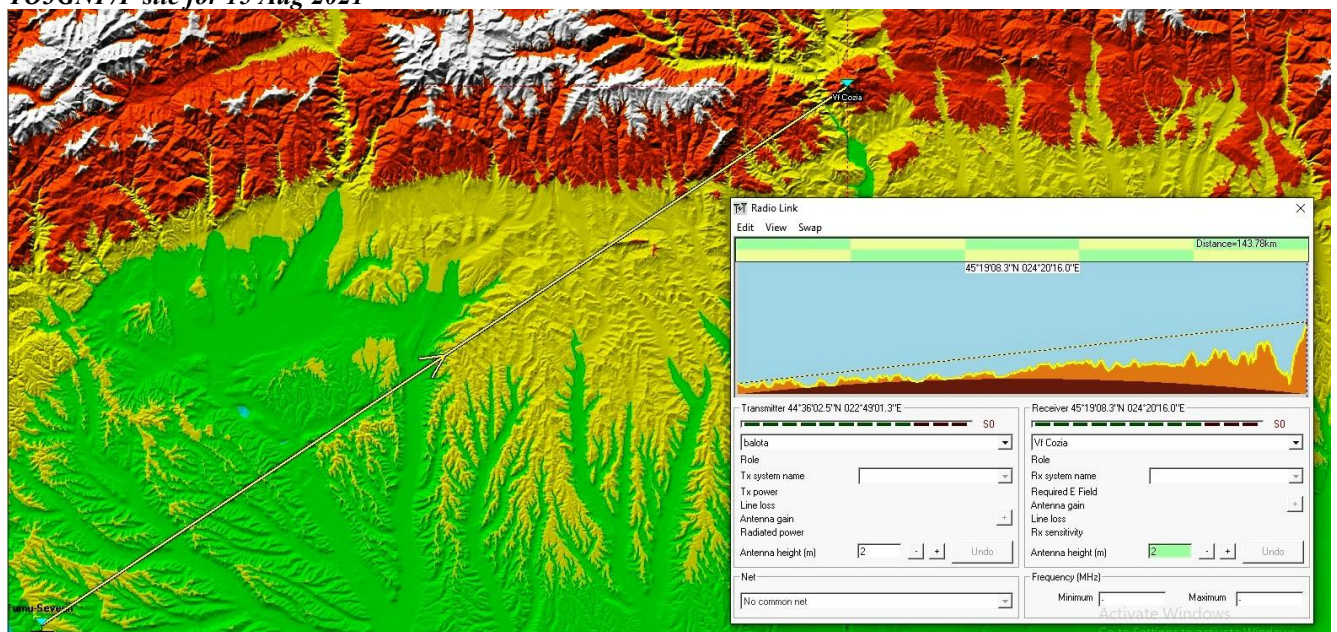

YO3GNF/P KN25EH setup for 3 cm band
